MBECT Tips and Tricks

October 9, 2013 Volume 2, Issue 34

Why Doesn’t This Print?

MBECT is designed to support a wide range of functions, and because of that not everything was designed to print on a billing calendar, or to print in a way that some users might expect. Here are some common questions about printing related to billing calendars:

- **MCRU Items**—MBECT now generates a separate report for MCRU as the schedule of events table. Because of this, items with an MCRU bill source do not print on the billing calendar. While it is not required, if you want an item to show on your billing calendar, consider choosing its non-MCRU counterpart and adding a comment.

- **Invoiceable items**—These items are generally added for budgets or financial workflows. If you have an item that you want to appear on your billing calendar that may occur in some instances or that the sponsor is paying for, consider marking it as study and adding a comment.

- **Comments**—There has been a lot of confusion as to where to enter a comment to have it appear on your billing calendar. For guidance, check our previous issue on this topic:
  - [http://tinyurl.com/MBECTTATComments](http://tinyurl.com/MBECTTATComments)
  - As always, if you aren’t sure ask your analyst! They are the last word on what appears on your billing calendar.

Training Continues!

- **Financials Overview:** Ask the help desk about setting up an overview of the financial modules for your department.

- If you don’t see an option that works for you don’t worry! Contact the help desk and let us know!
