Put Your Data to Work!

Why do double entry or work on multiple spreadsheets when MBECT already has all of your data? Learn about MBECT’s new versatile reporting capabilities when our vendor, eThority, is onsite the week of February 24th. Keep an eye out for more details coming soon!

We expect to offer hands on training to show you how MBECT’s DataBooks can handle what users are doing in Excel without the need to export or enter data in additional systems. Reports can automatically update as new data is available.

We already have your data, now let MBECT do the work for you!
