1. **Policy for Waste Blood Billing**

   These guidelines are to ensure that those involved in Clinical Research are aware of the current process regarding billing for waste blood.

2. **Purpose**

   a. Ensure Clinical Research Billing is completed as efficiently as possible when the use of waste blood is involved.

3. **Begin Steps / Process**

   For studies that use waste blood, Nancy Parker is to be notified that the study is coming through with no patient names, but the following should be provided:

   - Study name
   - Research MRN
   - HUM#
