### 3 Administrative Personnel in eRPM & GL

We spent reviewing and discussing administrative role assignments in eRPM, including PAF and AWD, as well the General Ledger (GL) and options for entering administrators on the PAF which in turn populate the administrators on the Award Record & General Ledger. We also reviewed how to update administrative personnel in both eRPM and in FINPROD. You can review the information covered in the attached **Admin Personnel in eRPM & GL.pdf**.

Pay special attentions to pages 4 & 5 which help guide decision making on how to enter administrators on the PAF depending on how you would like information populated on the Award Record & GL. Make sure you also take a look at page 8 which illustrates how Award ID's tie a project together with a corresponding award PG! The Award PG's contains data which should be updated when you are making SAPOC changes to non-subaccount PG's.

See the snapshot below for a sneak peek!
