Update Pricing

MBECT users can now get the most current pricing in a few easy clicks. From the items tab in edit mode, right click to bring up menu options to reset an individual item or all item values to the current chargemaster

values. Want to update your billing calendar activity to reflect these new prices for an updated budget? Simply choose "Reset Protocol Activity to Defaults" from the same menu.

Training Continues!

The new financial modules are **LIVE!** We listened to your feedback and the financial modules offer a lot of flexibility to track the entire life cycle of a trial from pre- to post-award status. Because of this, there is some additional responsibility to understand how the various modules interrelate and as such any users requesting access to the financial modules will be **required** to attend a training class before access can be granted.

- **Hands-on Training** : In-person training sessions are offered to walk users through example scenarios for hands-on experience in the system. Sign up on our website:
 - <http://tinyurl.com/MBECT-Training>
- **Overview** : Ask the help desk about setting up an overview of the financial modules for your department.
- If you don't see an option that works for you **don't worry!** Contact the help desk and let us know!

A final reminder that our office is relocating. We do not anticipate any delay in responding to help desk requests but appreciate your understanding and patience while we transition to our new space.
