MBECT Updates!

Some of you may have noticed some new features in MBECT after an update on Tuesday! We will be highlighting some of the changes in our next few issues.

Tired of trying to decipher the color codes on your activity tab? By popular request a color legend has been added to the top so it is easier than ever before to understand your study at a glance.

Need a quick look at your enrollment? You can now use the "Enrollment" tab to see the status of your trial subjects directly from the Clinical Trial module. The quick color code here shows if subjects have been disenrolled or if they were marked as a screen failure in visit management. There is the ability to export your list to Excel from the right click menu.

Note: Only users with permission to see the subjects on trials will be able to see this feature, and will only see the subjects to which they have access.
