

Post Award Advisory Committee

PAAC

April 17, 2013

Two Initiatives

- Phase 1: Implementation
- Phase 2: Post Implementation

Phase 1: Implementation

- Implementation: PAAC will be the forum in which training, best practices, and implementation guidelines for the new post award process are distributed. Each unit will nominate a representative that will be responsible for attending the meetings and disseminating information to their respective areas.

Phase 2: Post-Implementation

- Post implementation: PAAC will meet monthly and be the place where our post award community can express their questions and concerns. PAAC will be the voice to central offices in communicating current post award matrix information, along with future needs. Information will be exchanged from all levels to and from the forum. The forum will evolve over time and will be the Med Schools avenue to keep our departments informed and engaged.

PAAC Member Role

- PAAC members should:
 - Attend monthly meetings (please send a delegate if you can't attend)
 - Bring information back to your unit
 - Bring questions/concerns to the PAAC group
 - Discuss best practices
 - Bring ideas for the group to the group

Quote

The people who get on in this world are the people who get up and look for the circumstances they want, and, if they can't find them, make them.
~George Bernard Shaw~
