25-1. Protected Health Information/HIPAA

Completion of this section is required based on the response provided to question 7.3 and 25.1.

25-1.1* Identify the PHI to be used.

Select all that apply:

- Hospital/doctor's office records, including test results and dental records
- Mental health care records (except psychotherapy notes not kept with medical records)
- Psychotherapy notes (e.g., process notes) maintained separately from the regular medical record
- Alcohol/substance abuse treatment records
- AIDS/HIV, STD, or other serious communicable disease records (including testing, diagnosis, treatment, and outcomes records)
- Genetic counseling/genetic testing records
- Health plan/health insurance records
- Any records relating to condition, the treatment received, and response to the treatment
- Billing information
- Demographic information
- Personal identifiers
- Other

If other, please specify:

25-1.2* Explain why the PHI listed above is the minimum necessary to conduct the study.

For example, explain why the study could not reasonably and effectively be conducted without the PHI.

25-1.3* Will HIPAA authorization for access to the PHI be obtained for all or some subjects?

Select one:

- HIPAA authorization was/will be obtained from all subjects
- HIPAA authorization will not be obtained from some subjects or from some candidates for recruitment before their records are reviewed for eligibility determination or to obtain contact information
- HIPAA authorization will not be obtained from any subjects
